

## Wet 'N' Wild Kamikaze Now Open

### FOR IMMEDIATE RELEASE

October 20<sup>th</sup> 2008

**Waterfun Products** is proud to announce Australia's first and only double Sidewinder opened late September at Wet 'n' Wild Water World – Australia's largest waterpark, owned by Warner Village Theme Parks.

Branded as the Kamikaze, riders plunge down a sheer 11 meter drop at an angle of 70 degrees. Reaching speeds up to 50 km / h, riders feel the sensation of zero gravity.

Chief Executive of Warner Village Theme Parks (WVTP) John Menzies says, "We expect this new attraction to be a big hit with our thrill seeking teens and adventurous families. It's a unique attraction and the first of its kind in the southern hemisphere. It's an extremely unique attraction and the first of its kind in the southern hemisphere. We ask guests 'Ride if you dare!' – it's going to be one of those rides that keep you coming back for more," he said. John Menzies is hoping the new attraction will boost annual pass sales during their \$99 promotion the park is currently running.

He adds, "It's perfect for the family in the current economic climate. Wet'n'Wild is going to be the place to be this summer and a Wet'n'Wild MyFun annual pass is the perfect solution for families who are facing difficulties affording a Christmas holiday."

The Kamikaze is one of six Sidewinder attractions that have been installed this year. For additional information please visit [waterfunproducts.com](http://waterfunproducts.com), or contact Waterfun Products at (403)244-2202.
